1. Which of the following is not a valid data type in MongoDB?
   a) Double b) String c) Float d) Char

2. What is the maximum size of a BSON document in MongoDB?
   a) 16 MB b) 32 MB c) 64 MB d) 128 MB

3. Which of the following is not a valid MongoDB update operator?
   a) $set b) $inc c) $mul d) $div

4. Which of the following is not a valid MongoDB remove operator?
   a) $eq b) $in c) $gt d) $all

5. Which of the following is not a valid MongoDB aggregation pipeline stage?
   a) $match b) $group c) $sort d) $join

6. Which of the following is not a valid MongoDB sort direction?
   a) ascending b) descending c) left d) right

7. Which of the following is not a valid MongoDB projection operator?
   a) $slice b) $elemMatch c) $pop d) $push

8. Which of the following is not a valid MongoDB string pattern matching operator?
   a) $regex b) $text c) $like d) $where

9. Which of the following is not a valid MongoDB index type?
   a) unique b) sparse c) text d) compound

10. Which of the following is not a valid MongoDB drop method?
    a) dropDatabase() b) dropCollection() c) dropIndex() d) dropField()

11. Which of the following is not a valid MongoDB insert method?
    a) insertOne() b) insertMany() c) insertAll() d) insert()

12. Which of the following is not a valid MongoDB update method?
    a) updateOne() b) updateMany() c) updateAll() d) update()

13. Which of the following is not a valid MongoDB remove method?
    a) deleteOne() b) deleteMany() c) deleteAll() d) remove()

14. Which of the following is not a valid MongoDB aggregation pipeline operator?
    a) $project b) $group c) $lookup d) $join

15. Which of the following is not a valid MongoDB sort method?
    a) sort() b) sortBy() c) orderBy() d) None of the above

16. Which of the following is not a valid MongoDB limit method?
    a) limit() b) skip() c) take() d) None of the above

17. Which of the following is not a valid MongoDB projection method?
    a) select() b) exclude() c) slice() d) None of the above

18. Which of the following is not a valid MongoDB string pattern matching method?
    a) regex() b) like() c) text() d) None of the above

19. Which of the following is not a valid MongoDB index method?
    a) createIndex() b) ensureIndex() c) dropIndex() d) None of the above

20. Which of the following is not a valid MongoDB drop method?
    a) dropDatabase() b) dropCollection() c) dropIndex() d) None of the above

21. Which of the following is not a valid MongoDB insert method? a) insertOne() b) insertMany() c) insertAll d) insert

22. Detect the line containing the error:

```
db.cse.find().forEach(function(doc){
if(doc.age%2==0){
db.cse.updateOne({"_id":doc._id},{"$set":{"gender":"Male"}})
}
else{
db.cse.updateOne({"_id":doc._id},{"$set":{"gender":"Female"}})
}
)
```

23. Detect the line containing the error:

```
db.cse.aggregate(
[{
$match:{gender:"Male"}}
,$group:
{_id:"$gender",count:{$sum:1}
}}
])
```

24. Detect the line containing the error:

```
db.cse.aggregate([{
$project:{
"cnctval":{
concat:["$name"," ","$gender"]
}
}
}])
```

25. Which of the following is not a valid mongodb expression:

a. $set b.$avg c. $sum d. $null

26. Which function is used to display the total number of documents in the collection.
    a. Count() b. count() c.find().count() d. sum()

27. Choose the correct query to remove the name key while showing all the documents from the collection.
    a. db.cse.find({},{"name":0}) b. db.cse.find({"name":0},{}) c. b. db.cse.find({"name":1},{}) c. b. db.cse.find({},{"name":1})

28. Which operator selects documents where the value of the specified field is greater than a specified value?
    a. $lt b. $gt c. $lte d. $gte

29. 2. Which operator selects documents where the value of the specified field is less than or equal to a specified value?
    a. $lt b. $gt c. $lte d. $gte

30. 3. Which operator selects documents where the value of the specified field is greater than or equal to a specified value?
    a. $lt b. $gt c. $lte d. $gte
